My family event- draft

Use the sentences that you wrote yesterday to write your family event. Your event should start to sound more like a story. I have used my sentences from yesterday, to write my story. Can you see the different between the story and the list of sentences?

Mr Boyd's family event- Example

When I was 12 years old, I travelled to Portugal with my family. During the trip, I would always enjoy going to the swimming pool and playing tennis. I also really liked sitting in the sun because it was hot. One day, when I was walking next to the pool my friend pushed me in. I felt so embarrassed but it was funny. Later, we travelled to the zoo where I saw some amazing animals. My favourite was the parrot.

Remember that this is a draft so it is okay to make mistakes. The important thing is to write your story.
