

Date: Tuesday 17 th October 2017		FAO: Everyone in our school community
Agenda Items	Points discussed	Actions
How do we travel to school? Gather data.	Approx. 47 walk Approx. 16 bike Approx. 7 bus Approx. 11 scooter Approx. 106 car	
What is it like on Willow Brook and Fairway before and after school?	Willow Brook and Fairway are very busy roads before and after school. People park in the wrong places like on yellow lines and in front of driveways. They also park in the bus stop, which blocks the bus so it has to stop in the road. People park on the pavement, which means people cannot always pass when they are walking and wheelchairs and pushchairs would really struggle to get by.	<p>Ideas:</p> <p>We could ask the police to help us and maybe put parking tickets if people are parking in unsafe places. We could get traffic lights to cross the road more safely.</p> <p>We could have a team of people after school and before school to ask others not to park on yellow lines, outside driveways and in bus stops.</p> <p>We could get a zebra crossing. We could get a lollypop person.</p> <p>Community team to work together to see if they can put any of the above actions in place.</p>
Date of next meeting	Community team to meet after half term to start working on the actions suggested WC 30.10.17 Care team to meet after half term to plan Children in Need charity day/event
