

“Edwina never stopped talking. Ever. She still hasn’t...” Mary Harris
(Miss Harris’ Mummy)

For our science work this week I would love to see pictures of *you* when you were tiny.

Tell me what similarities can you see between yourselves now and then?

Tell me what differences can you see between now and then?

Can your parents tell you anything about what you were like when you were tiny?

How have you changed? How are you the same?
