

The human body is absolutely amazing. You are currently doing a hundred different things without even knowing about it. This week we are going to look further at the human body and what makes it so fantastic.

First we need to label our human body

See if you can label each part of the blank body and afterwards decorate it.

In our family we can have different hair colour and eye colour to our parents.

I would if you ask around your family and record everyone's eye colour and hair colour.

Name	Hair Colour	Eye Colour

Making Muscles

You will need:

elastic bands

strips of thick, strong cardboard

split pin

stapler & scissors

1. Cut two equal lengths of card from thick strong card.

2. Place one strip of card on top of the other.

3. Push a split pin through both pieces of card. This must be no less than 5cm in from the edge.

4. Cut 4 elastic bands to length. Two will be short (red) and two will be need to be longer (green).

5. Staple the elastic bands in place. The two shorter ones will attach on the outside of the arm and the 2 longer bands will attach on the inside of the arm. Attach them all so they are tight but not pulling.

The Human Race Quiz

What is the height of the tallest person on Earth?

What is the height of the smallest person on Earth?

What age is the oldest person on Earth?

Did you know that at one point, you were the youngest person on Earth? Although, it probably only lasted for about a second.
