

Name:

I can proofread a passage

Maurice was a mouse who lived in a hole under the floorboards of Boris Johnson's house. He loved to go around London and eat the fingers of gloves he found in the street. He was a very clever mouse and knew that Jimmy who worked in Paddington Station had lots of gloves that were found in lost property. Maurice would give Jimmy some old slices of pizza he found under Boris Johnson's desk in return for free gloves!
