

Money, Money, Money.

This week we are going to be looking at money. Lots of us use money every day and it is a big part of our world. We are first going to look at recognising different coins and their value.

What is the value of each coin?

A.

What is the value of each coin?

A.

What is the value of each coin?

Circle the coin that is worth- **£1**

Circle the coin that is worth 2p

Circle the coin that is worth 50p

Circle the coin with the lowest value

Circle the coin with the lowest value

Circle the coin with the lowest value

Order the coins from least to most valuable

Order the coins from least to most valuable

Extension

Dora says:

All coins are round.

Do you agree with Dora?

Which is the odd one out?

20 p

8 p

2 p

10 p

Why?

You Can Do It!

It is time for the big money. We are going to try and recognise notes. Make sure to really look at the note as the value will be written all over it.

What is the value of each note?

B.

B.

What is the value of each note?

A.

B.

Circle the note that is worth- £5

Circle the coin that is worth- £10

Circle the note with the lowest value

Circle the note with the highest value

Order the notes from least to most valuable

Order the notes from least to most valuable

Extension

Alex has offered to give me a

if I give him a

Is that a fair trade?

Explain why
