

My Family

People can be different because they can have allergies. They might have different rules. They might also look different. My friend Mafana has brown skin. Some people might speak a different language. John speaks Urdu and Immi speaks Shina. Families might have dead ancestors. People might have a pool or live in a flat. People have different hobbies and personalities. They might live in a big family or a small one. People might have pets.

I have a very big family. I have a brother called Billy, two sisters named Hannah and Grace.
