People who help us

Task 2: Understanding the World

There are people in our community who are there to help us if we need them. I wonder if you can find out about one real-life superhero job.

Start by watching Maddie investigate how firefighters put out fires and how the reflective strips on police cars are made and used [BBC iPlayer - Maddies Do You Know? - Series 1: 2. Fire Engine Hose and Reflective Strips](#)

You can use this information to draw your every day superhero doing their job and your grown up can write down some of the things that you found out about firefighters or police officers. If you know about a different job (maybe someone in your family is a nurse, dentist, vet or another kind of superhero) then you could tell us about them! (Attached is the writing frame we will use at school, this can also be collected from the office, plain paper will work just as well).

Task 3: Understanding the World

We are thinking about the heroes who live among us, like firefighters, doctors, nurses, ambulance drivers, police officers and lots more! Can you complete the sentences about the jobs performed by people who help us? Can you think of any other people who help us? Do you have a real-life superhero in your family?
