I can create my own creature.

The Bog Baby is a creature that lives in Bluebell woods. It was found one day by 2 children. The Bog Baby is a blue, round, frog sized creature with ears like a mouse. It has a spiky tail and small wigs no bigger than daisy petals. It is soft like jelly and loves to suck its own toe.

Today, I would like you to create your own creature. It can look, sound and smell however you like. My one request is that it cannot be a dangerous creature. Try to think about whether you would want to take it home and care for it. If your creature has big claws and sharp teeth, you are unlikely to want to take it home.

After you have drawn your creature, try to think about what it likes. Its favourite food, where it lives, its favourite flower or even how it walks.

Be creative, I know you will.
