## On the other side of the wall

We know from the story that Humpty Dumpty lives in a city that is surrounded by a wall. The wall has a ladder which stretches all the way to the top and there are lots of plants attached.

This makes me wonder. What is on the other side of the wall?

Perhaps a magic kingdom full of giants and goblins. Maybe a wasteland, almost like a desert with nothing around.

What if it is a forest, full of wild animals and beasts?

### Task

Can you draw what is on the other side of the wall and describe what you see.

What do you think is on the other side?
