

03.02.21

I can write and compare time  
(minutes and hours).

This clock shows us how long it takes for the hands to go around the clock. Starting at 12, it takes 60 to go around the clock. This means that it takes the minute hand 60 minutes to go around the clock to make 1 hour. So we know that there are 60 minutes in an hour. This will sound similar to what we know already with there being 60 seconds in 1 minute.

Using your experience from yesterday, try answering the questions below.

03.02.21

## I can write and compare time (minutes and hours).

5 teachers baked cakes for a school competition. There were 2 rounds to the competition, Cup cakes and Chocolate cakes. Can you circle the slowest time of each teacher?

Teacher	Cup Cakes	Chocolate Cakes
Miss Johnston	47 minutes	1 hour and 10 minutes
Mrs Roper	1 hour and 30 minutes	1 hour and 15 minutes
Mr Clarke	1 hour and 50 minutes	1 hour and 30 minutes
Mr Boyd	1 hour	50 minutes (cheating)
Mrs Best	58 minutes	56 minutes

Teacher with the slowest cooking time:

---

What kind of cake took the longest?

---

Teacher with the quickest cooking time:

---

What kind of cake was the quickest?

---

What was the time difference between Mr Boyd's Cup cakes and his chocolate cake?

---

Should Mr Boyd be disqualified for cheating?

Yes

No

The teachers all cooked one more cake. *The Showstopper cake round.* They had 1 hour and 30 minutes to finish.

Circle all the teachers who finished in time.

Teacher	Hopping Race
Mrs Roper	70 minutes
Miss Johnston	1 hour and 20 minutes
Mr Boyd	1 hour and 35 minutes
Mrs Best	99 minutes
Mr Clarke	65 minutes
Mrs Smith	85 minutes
