

I hope that you are feeling confident with using column multiplication to answer questions! Today, we are going to spend another session just making sure those skills and the steps to getting the answer are really embedded!

The questions are using the same skills of starting in the units, carrying into the next column if we need to etc but these ones might involve carrying more than once...

Remember, if you're not feeling confident then watch the video of me demonstrating how to use column multiplication.

1. 37×3
2. 27×5
3. 4×45
4. 43×8
5. 49×2
6. 73×5
7. 86×2
8. 54×3
9. 93×4
10. 62×8

Example: HTU

$$\begin{array}{r} 27 \\ \times 8 \\ \hline 216 \end{array}$$
