

Watch the video of Miss Brearey eating/doing maths with smarties!

If your adult at home lets you, some sweeties would make perfect counters (such as smarties, jelly beans etc) for your arrays. If not, you will need 24 objects (e.g. pieces of lego, pencils, pebbles) to make your arrays.

$6 \div 3 = \underline{\quad\quad}$      $22 \div 2 = \underline{\quad\quad}$      $16 \div 2 = \underline{\quad\quad}$

$15 \div 5 = \underline{\quad\quad}$      $10 \div 5 = \underline{\quad\quad}$      $16 \div 4 = \underline{\quad\quad}$

$10 \div 10 = \underline{\quad\quad}$      $15 \div 3 = \underline{\quad\quad}$      $4 \div 2 = \underline{\quad\quad}$

$24 \div 3 = \underline{\quad\quad}$      $12 \div 2 = \underline{\quad\quad}$      $18 \div 3 = \underline{\quad\quad}$

$21 \div 3 = \underline{\quad\quad}$      $6 \div 2 = \underline{\quad\quad}$      $18 \div 2 = \underline{\quad\quad}$
