

Although we're fast becoming a cashless society, coins and notes are still used! Money is best taught with the physical coins- get the piggy bank out! Choose 2,3,4,5...maybe more coins (and notes if you have any!) to count up depending on how confident you are.

Play the game on Top Marks: <https://www.topmarks.co.uk/money/coins-game> (Click on: "counting" then any 4/5/6 coins).

Complete the below grids, telling me how much money is in each row and column...I have done the first one for you...

1.	£1 and 65p			
				
				
				
				

2.					
					
					
					
					
					

	74p	91p	85p	61p	84p	66p
£1 and 29p						
63p						
£1 and 2p						
67p						
53p						
57p						

Challenge...

What are the missing coins? Draw them in the grid or write a list to the side telling what the missing coin is on each row:
