

What do you mean I can't pay with beskar steel in England?!

Play the Toy Shop Money game (mixed coins, exact money, any! Although I would recommend start with the smaller values first) on Top Marks.

<https://www.topmarks.co.uk/money/toy-shop-money>

AND/OR

Play the cashing in game- using exact change to pay for items, there is a useful running total on the screen!

<https://www.doorwayonline.org.uk/activities/cashing-in/cashing-in.html>

Set up shop at home! Choose what you are going to sell...cans from the cupboard, fruit and veg, toys? Label up how much things cost (you could even mimic being in a shop and do some buy one get one free offers...!) but I would recommend not getting too carried away with this, 10-15 items would be enough. Practice/asking your customers to use exact coins (i.e. no change given) to pay for the items– your prices might have to be based on how much change you have in the house!

Insert a picture of your shop to the assignment on OneNote!

Challenge

Miss Brearey has 5 different coins in her purse. What is the greatest amount of money she could have? What is the least amount of money she could have?

Mrs Best has 5 **silver** coins in her purse. She can make 40p with 3 of the coins. She could also make 75p with 3 of the coins. What coins does she have in her purse? How much money has she got in her purse?
