## Art- Andy Goldsworthy

Andy Goldsworthy is a British artist and sculpture who lives in Scotland.

Andy creates his amazing pieces of work using natural elements.

He collects, sticks, leaves, stones and mud to make his art truly organic.

These are some of his most famous pieces. Andy makes most of his natural work himself although, sometimes with bigger pieces he works with others. Andy Goldsworthy understands that his art will not last forever because eventually the weather will destroy his work. He takes a photo of every piece he finishes so that it can be appreciated by others.

Today, I would like you to walk outside and have a go at creating your own Andy Goldsworthy inspired piece of natural art.

Here is one I have done.
