## Andy Goldsworthy Art- Recreation

I was so impressed by all your fantastic Andy Goldsworthy inspired art from last week. You were all very creative. This week, I would like us to try and recreate one of Andy Goldsworthy's most famous pieces of art.

Try going out into your garden and see how many leaves you can collect. Then, separate them into colours and try to put the darker colours on the outside and the lighter colours in the middle.

If you don't have many leaves or it is too cold. I have included some leaf templates which can be cut out and coloured in.
