

W6 Monday 1: Maths - Ultimate Daily 10

27 January 2021 14:00

Right! This is the last week of Daily 10. We should be pretty match fit now. THIS week you are going to be doing **the 12 times tables...**

When we come back to school (one day!) I am going to set the class off straight away with mixed times tables... all the way up to 12 times tables. You should know which times tables are your weakest and which you need to practise by playing Hit the Button! BE PREPARED!

Level 5 ▾ Doubles/Halves ▾ Doubles: Ones and Tenths ▾

Level 5 ▾ Multiplication ▾ $\times 12$ Table Up to 12 ▾

Level 5 ▾ Division ▾ $\div 12$ Tables Up to 12 ▾

Extension

Level 5 ▾ Rounding ▾ Decimals to Nearest Whole Number ▾

FILL IN THE TABLE WITH YOUR BEST TIME AND SCORE FOR ALL THREE - have a go at each one.

If you're often scoring 10/10, that means you should reduce the time. Quicker is better!

Extension is optional.

Which challenge?	Time Interval (best)	Score
Decimal place doubling		
Multiplication $\times 12$		
Division $/ 12$		
Extension: Rounding
