

My Design for a Moving Picture

I can design and make a working product, thinking about who it is for and what it needs. I can make decisions about my product design and make a labelled sketch to show them.

What do you want your moving picture to look like? Which part or parts of your picture will move? Draw a plan of what your picture will look like. Write some notes to help you remember what to plan when making your design. When ready, begin making your picture.
