

W2 Friday 3: Art - Making art with words!

24 February 2021 13:54

Sometimes a poem can be turned into Art itself... the words of a poem can be arranged into a symbolic image.

Or word associations are arranged into a WORD CLOUD. Sometimes these clouds of words can be arranged in a shape relevant to the subject...

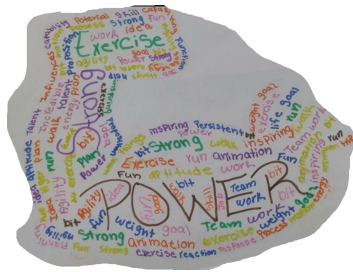

YOUR TASK:

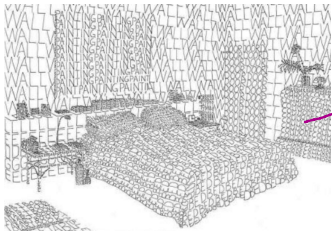

To create some art using either the whole of your 'Things I have been doing lately' poem OR words taken from your poem.

Look at the images below and find some inspiration! Any medium, colour or no colour...

If you didn't write a poem then maybe think about how you would sum up you lockdown experience in a list of words and then look to create some art using those words!

HERE IS MY ATTEMPT!
Believe it or not there was a bright pink background carefully coloured in but has not shown up on my scan!

Modern artists are experimenting with words and art all the time... Here are some of my favourite...
