

Summer Sun

What a wonderful Easter break the Litchfield household has enjoyed. The warmth of the sun, the brighter nights and the tantalising feeling of rest and relaxation being just out of reach when the morning chorus of, "Daddy, are you awake?" resonates through the house at 6 o'clock in the morning. I'm sure you can relate...

Throughout the Easter break we've been incredibly busy doing all manner of things: from trips to the cinema (The Magic Faraway Tree is enchanting) to taking part in the Lincoln 10k fun run, the Litchfield household has exhausted all manner of entertainment for both Eleanor and Arthur. Having said that, one of my favourite memories has been visiting family and having a smashing Easter egg hunt – we found forty-eight eggs!

So, as we bid a fond farewell to the Easter break, what have we got lined up in school? As ever, the answer is 'lots of things!' read on to find out more about our plans for the first summer term...

What are we learning?

Earth & Space

Our theme for this half term focuses in around the topic of 'Earth and Space'. We'll be learning about our solar system during our science lesson, reading the excellent story of 'The Jamie Drake Equation' during English and all of our other learning this half term will have a space theme or connection too it. I can't wait!

Homework

Home Learning

Handed out Monday – Returned Monday.

Reading

A huge well-done to all those children who have been keeping up with their reading at home; we've really enjoyed talking about books during the spring term and this is set to continue as we examine lots of different text types this half term, ranging from scientific report writing to product evaluations in D.T.!

Homework Tasks

Homework will keep to the same theme as previous half terms. As ever, I want to thank you for supporting your children's learning – it continues to be a real treat for me to see how much effort your children put into their work and we celebrate this every week in class.

Highlights from last half term

Wacky Races

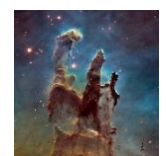

During the last half term the children worked fantastically alongside one another as they studied Isaac Newton's Laws of Motion.

They carefully prepared their projects, recorded the results and produced superb data analyses. It truly was a joy to behold.

Summer 1 Learning

To find out more about what we Are learning this half term, please see the reverse of this letter.

If you do have any questions or concerns that I can help with, please catch me on the playground and I'll do my best to answer them then and there.
